- 12,500 watts of 3 phase or 11,500 watts of 1 phase auxiliary power
- 4 process modes-CC-Stick, Downhill pipe, touch start, or CV-Wire
- 12.5 kw peak, 11 kw continuous
- Arc gouging with up to 1/4" carbons

New 300 AMP Welder

400 AMP Trailer Mounted Welders

- 19 kw peak, 17kw continuous 3 phase AC power
- 12 kw peak, 11kw continuous 1 phase AC power
- 4 process modes
- Monitoring performance, fuel, oil pressure, & engine temperature.
- Digital weld meters

New 400 AMP Welder

GETTING IT STRAIGHT : Single Sloping Laser Levels

Still using optical leveling? One day on the job with one of our Topcon Sloping Laser levels and you'll never go back. It's touted as the best value in general construction lasers today.

FAST - Stop chasing bubbles and get to work. It's automatic. Just push the Power button on the RL-H1Sa for flat work.

ACCURATE - A state-of-the-art electronic encoder leveling and grade setting system ensures 10 arc second accuracy over the entire site. That translates into less rework - and greater cost control. Even on difficult grading jobs like terraced pads and hillsides, the RL-H1Sa provides a precise elevation reference you can count on all day long.

RELIABLE - The RL-H1Sa also offers a number of power management options. The optional NiMH rechargeable battery pack allows cordless operation for up to 30 hours, and only requires a quick 6 hour charge before it's ready again! You can also use standard alkaline batteries or a 12vDC connection to power the laser and recharge the battery at the same time.

\$1.99

per pair with any lawn & garden rental

Bring in this coupon for your discounted gloves. Expires 04/30/2008

GET YOUR YARD READY WITH BIRCH

Thatching

- Cut out a 3-inch square of your yard with a sharp knife and look at the thatch layer
- If more than a 1/2 inch of old roots and stems show this is your year to thatch
- Rake out moss spots and dead patches

Aerating

- Water area to be aerated the night before
- Go over high traffic areas, after water apply fertilizer
- Regular aeration will produce greener, easier to maintain lawns

Roto-tilling

- Ideal for loosening hard soil prior to any project
- Great for use before planting
- Very easy to use for any skill level

Sod Cutting

- Perfect for removal of grass & roots
- Ideal for keeping unwanted weeds from growing through a new garden, creek, & many other landscape features.

Augers & Auger Attachments

- Drilling up to 36" diameter holes for fence posts, planting, etc.

Dingo

- Perfect for any yard project
- Hauling debris, trenching, pot hole filling, digging, tilling, cement mixing, leveling, moving landscape rocks & more.

Yard Vacuums

- Ability to pick up cans, cigarette butts, bottles & trash.

High Weed Mowers

- Great for mowing over overgrown grass & weeds.
